Dear Steve and Team at Denco:

My staff and I are now 1 1/2 years in the new office you built for us. Not only are we enjoying the new office but our patients continue to praise the modern design. Looking back, I'm still very impressed on how you made a difficult process so easy for us. Your advice and recommendations on transitioning and moving was extremely valuable. You and your staff helped keep the process organized which resulted in the project completing as scheduled.

Your recommended professionals from architect, I.T. , and your foreman Donny, demonstrated detail, patience, and excellent service. It was very assuring to have you representing me during the construction process. You always had my interests when communicating on my behalf to the landlord. Any concerns were addressed with immediate follow-up.

Thanks again to you and your team at Denco.

Sincerely,

Tony Kaocharoen DDS
